

FOR FURTHER INFORMATION CONTACT: To obtain a copy of the data collection plans and instruments, submit comments in writing, or request more information on the proposed project, contact: Ms. Mikia P. Currie, Chief, Project Clearance Branch (PCB), Office of Policy for Extramural Research Administration, 6705 Rockledge Drive, Suite 803-B, Bethesda, Maryland 20892, or call non-toll-free number (301) 435-0941 or Email your request, including your address to: curriem@mail.nih.gov. Formal requests for additional plans and instruments must be requested in writing.

SUPPLEMENTARY INFORMATION: Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 requires: Written comments and/or suggestions from the public and affected agencies are invited to address one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3)

Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Proposed Collection Title: Generic Clearance for Conferences, Meetings, Workshops, Poster Sessions and Registrations, exp., date 07/31/2022, Office of the Director (OD), National Institutes of Health (NIH).

Need and Use of Information Collection: The information collection encompassed by this generic clearance continues to allow NIH to select the most appropriate participants for non-grantee activities sponsored, organized, and run by NIH staff, according to the type and purpose of the activity. For example, NIH may develop an application process or information collection to select a limited number of researchers to participate in a poster session, identify speakers and panelists with desired expertise on a specific topic to be covered at a meeting, or determine which researchers would mostly likely benefit from a training course or other opportunity. For NIH to

plan and conduct activities that are timely for participants in their field of research, it is often necessary for such information to be collected within a relatively short turnaround time. In general, submitted abstracts or other application materials will be reviewed by an internal NIH committee responsible for planning the activities. This committee will be responsible for selecting and notifying participants. The information collected for these activities generally include title, author(s), and institution/organization, poster size and character limitations along with other requirements. This information is necessary to identify attendees eligible, present research, speak on panels, and discuss innovative approaches to science and technology for poster presentations among their peers. The registration form collects information from interested parties to register them and obtain the necessary qualifications for conferences, meetings, workshops, poster sessions, presentations and panels.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 8,875.

ESTIMATED ANNUALIZED BURDEN TABLE

Type of form	Number of respondents	Number of responses per respondent	Average burden (in hours) per response	Total burden hours
Conferences	2,500	1	1	2,500
Meetings	2,500	1	45/60	1,875
Workshops	2,500	1	30/60	1,250
Poster Session	1,000	1	1	1,000
Panels	1,500	1	30/60	750
Presentations	1,500	1	1	1,500
Total	11,500	8,875

Date: April 27, 2022.

Center for Scientific Review; Notice of Closed Meetings

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meetings.

The meetings will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: Brain Disorders and Clinical Neuroscience Integrated Review Group; Pathophysiological Basis of Mental Disorders and Addictions Study Section.

Date: June 1–2, 2022.

Time: 10:00 a.m. to 7:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, 6701 Rockledge Drive, Bethesda, MD 20892 (Virtual Meeting).

Contact Person: Boris P. Sokolov, Ph.D., Scientific Review Officer, Center for Scientific Review, National Institutes of Health, 6701 Rockledge Drive, Room 5217A, MSC 7846, Bethesda, MD 20892, 301-408-9115, bsokolov@csr.nih.gov.

Name of Committee: Surgical Sciences, Biomedical Imaging and Bioengineering Integrated Review Group; Imaging Technology Development Study Section.

Date: June 2–3, 2022.

Time: 9:00 a.m. to 8:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, Rockledge II, 6701 Rockledge Drive, Bethesda, MD 20892 (Virtual Meeting).

Contact Person: Guo Feng Xu, Ph.D., Scientific Review Officer, Center for Scientific Review, National Institutes of Health, 6701 Rockledge Drive, Room 5122, MSC 7854, Bethesda, MD 20892, 301-237-9870, xuguofen@csr.nih.gov.

Name of Committee: Integrative, Functional and Cognitive Neuroscience Integrated Review Group; Neurotoxicology and Alcohol Study Section.

Date: June 2-3, 2022.

Time: 9:30 a.m. to 7:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, Rockledge II, 6701 Rockledge Drive, Bethesda, MD 20892 (Virtual Meeting).

ADVISORY COUNCIL ON HISTORIC PRESERVATION

Notice of Intent To Request Public Comment on Draft Exemption From Historic Preservation Review for Electric Vehicle Supply Equipment

AGENCY: Advisory Council on Historic Preservation.

ACTION: Request for Public Comment on Draft Exemption from Historic Preservation Review for Electric Vehicle Supply Equipment.

SUMMARY: The Advisory Council on Historic Preservation (ACHP) proposes an exemption that would relieve Federal agencies from the requirement of taking into account the effects of their undertakings on historic properties that involve the installation of certain electric vehicle supply equipment (EVSE). The proposed exemption would allow all Federal agencies to forego the historic preservation review process required for Federal undertakings and more quickly implement EVSE infrastructure for the Federal fleet. The public is invited to comment on the draft exemption before it is finalized and submitted for review and potential adoption by the ACHP.

DATES: Submit comments on or before June 4, 2022.

ADDRESSES: Address all comments concerning this exemption to Jaime Loichinger, Assistant Director, Advisory Council on Historic Preservation, at program_alternatives@achp.gov.

FOR FURTHER INFORMATION CONTACT:

Jaime Loichinger, (202) 517-0219, jloichinger@achp.gov.

SUPPLEMENTARY INFORMATION: Section 106 of the National Historic Preservation Act, 54 U.S.C. 306108 (Section 106 and NHPA), requires Federal agencies to consider the effects of their undertakings on historic properties, and provide the Advisory Council on Historic Preservation (ACHP) a reasonable opportunity to comment with regard to such undertakings. Historic properties are those properties that are listed in the National Register of Historic Places (National Register) or eligible for such listing.

The NHPA authorizes the ACHP to promulgate regulations for exempting undertakings from any or all of the requirements of Section 106 (54 U.S.C. 304108(c)). The Section 106 regulations, found at 36 CFR part 800, detail the process for the approval of such exemptions (36 CFR 800.14(c)).

In accordance with section 800.14(c), the ACHP may approve an exemption for an undertaking if it finds that: (i) The actions within the program or category would otherwise qualify as “undertakings” as defined in 36 CFR 800.16; (ii) the potential effects of the undertakings within the program or category upon historic properties are foreseeable and likely to be minimal or not adverse; and (iii) exemption of the program or category is consistent with the purposes of the NHPA.

I. Background

In 2021, three Executive Orders were issued regarding Federal vehicle, or fleet, electrification: (1) E.O. 14005, Ensuring the Future is Made in All of America by All of America’s Workers, commits the Federal government to upgrade the entire Federal fleet to electric vehicles (EVs); (2) E.O. 14008, Tackling the Climate Crisis at Home and Abroad, prioritizes the development of a Federal Clean Electricity and Vehicle Procurement Strategy and directs Federal agencies to upgrade the entire Federal fleet to EVs; and (3) E.O. 14057, Catalyzing Clean Energy Industries and Jobs Through Federal Sustainability, sets a goal of 100 percent zero emission vehicle Federal acquisitions by 2035, including 100 percent light duty vehicle Federal acquisitions by 2027. Additionally, the Infrastructure Investment and Jobs Act (IIJA) of 2021 (Pub. L. 117-58, 135 Stat. 429) appropriates \$550 billion for new infrastructure investments. The IIJA includes provisions to increase investment in electric vehicle supply equipment (EVSE), alternative fuel

infrastructure, EV batteries, electricity grid upgrades, and light-, medium-, and heavy-duty zero emission vehicles.

Due to these requirements, Federal agencies are anticipated to propose activities to carry out, license, approve, or fund undertakings to electrify Federal vehicles and provide electric vehicle supply equipment (EVSE) that have the potential to affect historic properties and therefore, require Section 106 review.

An EV produces zero tailpipe emissions, dramatically lowering smog and greenhouse gas emissions even when considering electricity generation (EV refers to both Battery Electric Vehicles and Plug-in Hybrid Electric Vehicles). EVs have the potential to significantly improve Federal fleet efficiency and reduce vehicle operation and maintenance costs. EVs require EVSE. Commonly referred to as charging stations, EVSE is the hardware of the charging infrastructure that transfers energy to a vehicle. EVSE can be wall- or pole-mounted, co-located or stand alone, and vary in design, size, charging speed and energy use.

II. Exemption Concept and Criteria

In considering how to address the anticipated increase in undertakings as a result of these requirements, the Department of Homeland Security (DHS) assembled an ad hoc working group of Federal Preservation Officers (FPOs) to discuss EV priorities and the potential effects of the EVSE program on historic properties. Through consultation with fleet technical experts, the working group defined the undertakings to be addressed by the proposed exemption as the installation, maintenance, repair, and expansion of Levels 1, 2, and 3 EVSE as defined by the General Services Administration. DHS approached the ACHP with the concept of the proposed exemption, at which time the ACHP determined it would avail itself of the regulatory process to propose the exempted category itself. The government-wide priority for fleet electrification and EVSE installation merited ACHP coordination of the proposal to ensure broad and appropriate consultation for an exemption likely to be applied across multiple Federal agency programs.

The EVSE undertakings would require minimal changes to distinctive building materials, features, spaces, and spatial relationships, including landscapes and streetscapes. With few exceptions, these undertakings include co-location with existing electrical infrastructure; utilization of existing parking areas and structures; are incorporated within public transportation rights-of-way
